PROFESSIONAL SUMMARY

Technical support professional with 5+ years in SaaS and digital platforms, from front-line multilingual support at Hotmart to leading an escalated technical integration & support team at Awin, a global affiliate marketing network. Own the full lifecycle of complex, client-sensitive cases: diagnosing tracking, data and integration issues, aligning Product and Operations stakeholders, and fixing root causes so similar cases stop coming back. Helped build the team's support foundations (SOPs, integration frameworks, KPI/SLA tracking), cutting average resolution time by 76%, support cases on new integrations by 71% and lifting internal CSAT from 83% to 94%. Hands-on Claude user: built Claude Code Skills and MCP integrations with Databricks and Salesforce. Clear, patient writer in English, Spanish and Portuguese.

KEY ACHIEVEMENTS

- Raised internal CSAT from 83% to 94% as Team Leader at Awin, and reached 87% personal CSAT at Hotmart (team average 76%).
- Cut average case resolution time by 76% year over year (from 72.5 to 17.6 days), alongside a 4% improvement in first response time.
- Reduced contact volume at the source: 71% fewer support cases opened for newly launched integrations, by raising technical sign-off and integration quality standards.
- Strengthened the foundations of a global support team: integration frameworks, SOPs and KPI/SLA tracking that keep service consistent across regions.
- Built Claude Code Skills and MCP integrations with Databricks and Salesforce that automate team performance and KPI analysis.

CORE COMPETENCIES

Technical Support: escalated case handling, full support case lifecycle, troubleshooting & root-cause analysis, escalation management, CSAT, SLA and first-response tracking

APIs & Web: REST APIs & webhooks, JavaScript, HTML, SQL, Python, Google Tag Manager, Shopify, Magento, reading and writing technical documentation

AI & Automation: Claude Code (custom Skills, MCP integrations), OpenAI, AI agents & voice assistants (Vapi AI), RAG, n8n, Make, Zapier

Support Operations: SOPs & knowledge resources, KPI/SLA reporting (SQL in Databricks, Power BI), case and workload management in Salesforce, process improvement

Communication: written support for executives and end users, training & enablement, translating technical issues into clear next steps

Leadership: team coaching & 1:1s, workload prioritisation, performance monitoring

Languages: Spanish (Native) | English (Full Professional) | Portuguese (Full Professional)

PROFESSIONAL EXPERIENCE

Team Leader – Global Technical Client Integration & Support *May 2025 – Present*

Awin Global | São Paulo, Brazil

- Lead a 6-person technical integration & support team and act as escalation point for complex and client-sensitive cases; prioritise and assign workload via Salesforce.
- Introduced CSAT surveys for the internal Awin teams that raise support tickets; CSAT rose from 83% to 94% since 2025.
- Cut average case resolution time by 76% (from 72.5 to 17.6 days) and improved first response time by 4% year over year.
- Reduced support demand at the source: 71% fewer cases opened for newly launched integrations, by tightening technical sign-off and quality standards.
- Improved integration frameworks, SOPs and KPI/SLA tracking, keeping service delivery consistent across regions.
- Analyse case and KPI data with SQL in Databricks to find bottlenecks and root causes; built Claude Code Skills and MCP integrations with Databricks and Salesforce to automate this analysis.
- Partner with Product, Sales and Operations to turn recurring client issues into technical requirements, and support UAT.

Senior Global Integration Analyst *June 2024 – May 2025*

Awin Global | São Paulo, Brazil

- Troubleshot and resolved client integration issues across GTM, Shopify and Magento: tracking flows, events, data accuracy and attribution logic.
- Performed technical sign-off through functional and technical validation before handover to the Account Manager.
- Handled client communication across the whole case lifecycle: issue analysis, requirements gathering and resolution of escalations, in English, Spanish and Portuguese.
- Managed the activation cycle in Salesforce from contract signature to technical delivery, keeping stakeholders aligned and milestones on time.

Full-Stack Developer & Technology Solutions Specialist *April 2023 – June 2024*

Eversuite LLC | Utah, United States (Remote)

- Designed and deployed AI conversational agents and voice assistants (OpenAI, Vapi AI, Assistable AI) for clients across multiple industries.
- Built multi-step automations (HighLevel, n8n, Zapier, Make) connecting CRMs, APIs and AI models to replace manual processes.
- Connected Google and Meta APIs to n8n and Zapier workflows, and debugged integration failures to keep client automations running.
- Integrated third-party tools and APIs, translating functional requirements into working technical implementations.
- Delivered client training and technical assistance to drive adoption of implemented solutions.

Independent AI Automation Consultant *March 2022 – June 2024*

AI Consulting Practice | Remote

- Led discovery and solution design with marketing agency clients, turning manual processes into automated workflows across CRM, web and AI systems.
- Built a Meta Conversions API attribution pipeline (GoHighLevel → n8n) and AI-powered lead-auditing tools, working with stakeholders from scoping to delivery.

International Customer Experience B2B/B2C *February 2021 – April 2023*

Hotmart | São Paulo, Brazil

- Delivered technical and customer support to buyers and producers on a high-volume global digital platform, resolving functionality issues, troubleshooting and escalations.
- Reached 87% personal CSAT, above the 76% team average.
- Provided multilingual support in Spanish, English and Portuguese, adapting communication to users of varying technical knowledge across regions.
- Completed ongoing training on platform tools and technical structure to improve first-contact resolution and support quality.
